OPEN HOUSE

WHAT'S ON TODAY

The full schedule on your phone — what is happening, when, and where to be. It updates itself through the day and shows you what is on right now.

POINT YOUR CAMERA AT THE CODE

or type `carynamichel-hue.github.io/open-house`

NEVER USED ONE OF THESE?

- 1 Open the **Camera** app, the same one you take pictures with.
- 2 Hold it so the square code fills the screen.
- 3 **Do not press the button.** Just wait a second.
- 4 A link appears — **tap it**, and the page opens.

Nothing happening? Move a little closer, or further back — and make sure the whole square is in view.
Still stuck? **Ask anyone in a yellow shirt.**
